

WHAT IS CODING?

A Fun and Simple Explanation for Little Coders

HELLO !!

1

Coding is Like Talking to Computers.

Coding is how you tell computers what to do using special languages that they understand. You speak a secret language that only computers know!

2

GAME
START

You Can Make Cool Things with Coding.

By speaking the computer's language, you can create awesome games, apps, and websites. It's like having a magic wand to build anything your imagination can dream up!

3

Coding is a Fun Adventure!

Learning to code is like solving puzzles and exploring new worlds. You get to discover hidden treasures and unlock exciting secrets in the world of computers.
